

THE ORGANWISE GUYS®

Windy®
(the lungs) Peri Stolic®
(the intestine)

Calci M. Bone® Pepto (the stomach)

Madame Muscle®

The Kidney Brothers®

Hardy Heart®

Sir Rebrum®
(the brain)

Improve the health and academic status of your students this upcoming year using an evidence-based, teacher-friendly digital platform that costs less than the price of a school lunch (**only \$2.50 per student**) for the entire year!

Consider including this whole child, healthy living program (PreK-5th Grade) at special pricing through our partnership with **COLORADO BOCES ASSOCIATION**. This program contains content for all educators (including Specials, ESOL, STEM, etc.) and can be accessed at home via your school's learning portal.

- All content correlated to your state-specific standards in math, science, language arts and health/PE as well as national STEM and Head Start standards
- Documented health and literacy improvements
- Ideal for Media Specialists, Nurses, Counselors and PE/Health Teachers who see all students
- Easy to use – no prep work for teachers
- Year-round nutrition education (parent newsletters, activity sheets, clip art and more)
- SEL (Social-Emotional Learning) components to help with student's overall well-being
- Content available in English and Spanish
- Virtual (free of charge) or in-person trainings to quickly onboard teachers

Please use the **calendly** link below to schedule a short overview of the program.

Dr. Michelle Lombardo, President
