

RESOLUTE GUARD

Comprehensive Cybersecurity for Schools Districts, Community Colleges, and Local Governments

Enterprise-Grade Cybersecurity for Public Entities
Without Complexity or High Costs

Supported By:

COLORADO BOCES ASSOCIATION

Joining Forces to Enrich Educational Opportunities for Students

PURPOSE-BUILT ASSESSMENT & PLANNING

Use intuitive tools for clear status visibility and progress tracking.

SEAMLESS, SCALABLE IMPLEMENTATION

Flexible, phased deployment options for organizations with limited IT resources.

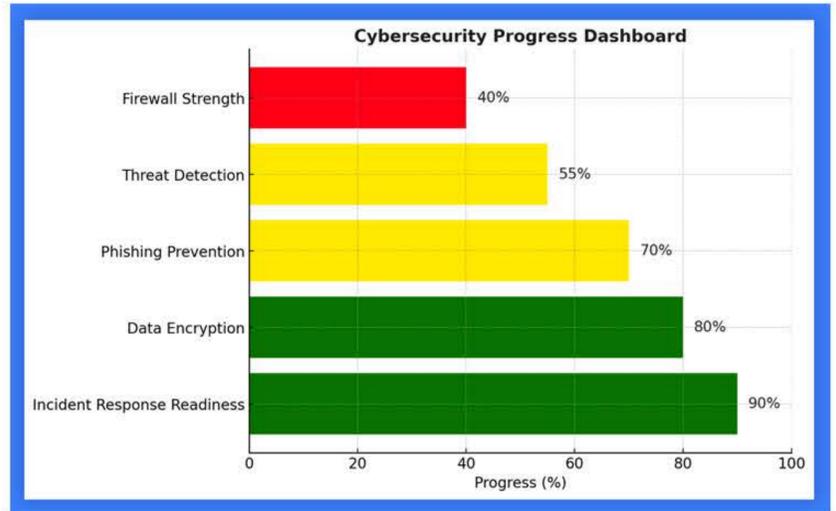

DEDICATED CYBERSECURITY ADVISOR

Continuous guidance from assessment through implementation and ongoing protection.

Assessment & Planning

Simplify your cybersecurity planning and governance by leveraging ResoluteGuard's assessment process, powered by an intuitive application featuring real-time status updates and risk indicators.

- Comprehensive scans to identify vulnerabilities and risks
- Insights that track progress & align with planning objectives
- Compliance & governance to lower insurance premiums

End-to-End Cybersecurity Implementation

A flexible deployment approach to implement cybersecurity solutions to fit your needs and available resources.

- **Flexible Security Solutions:** integrate seamlessly with existing protections & embed continuous monitoring.
- **Scalable Deployment Options:** Phased roll out - Implement solutions based on organizational priorities.

Protection Aligned with NIST Cybersecurity Framework

Based upon the current profile of your cyber posture, we recommend tailored solutions to meet your specific needs. ResoluteGuard provides you with best-in-class product solutions at a fraction of the cost.

- 🛡️ **Protect:** Multi-Factor Authentication (MFA), Endpoint Security, Network Security, Cloud Security, User Awareness & Training
- 🛡️ **Detect & Respond:** Managed SOC, Managed Detection & Response (MDR)
- 🛡️ **Recover:** Data Protection, Backup & Recovery

Your Dedicated Cyber Advisor

We know Public Entities! We provide expert guidance to ensure continuous protection, compliance, and risk mitigation, working alongside your team to simplify cybersecurity.
