## Strategies to Improve Waste Diversion Rates

### The Mosaic™ Series

Waste diversion refers to any activity that prevents waste from going to landfill or incineration. Through methods like recycling, composting, and reusing materials.

A well-designed program not only helps you meet regulatory standards but also boosts your organization's efficiency and sustainability efforts.

The Mosaic™ Series doesn't just collect waste, it changes behavior. Customize all four panels and lids to clearly guide users, reinforce your diversion strategy, and turn every station into an educational touchpoint. Use the signage and restrictive openings to prompt better choices, highlight impact, and make diversion intuitive.

## WHY BUSCH?

### Indoor Containers

### Customizations

Signage, Labels, Colors,  
and Restrictive Openings!

### Outdoor Containers

Busch Systems® has been passionately delivering recycling and waste solutions for over 40 years and is the number one rated brand in the industry according to TrustPilot®. With a comprehensive offering of customizable recycling & waste containers and safe spaces dispensing products, Busch Systems® is committed to providing solutions designed to meet the comprehensive needs of Members' and end users' collection programs.

### COLORADO BOCES ASSOCIATION

*Joining Forces to Enrich Educational Opportunities for Students*

As part of our commitment to sustainability, we love sharing our passion and expertise with others. Through our webinars, we'll present case studies, best practices, and industry updates so viewers are sure to gain valuable knowledge on current topics in the recycling industry.
