## Save Money by Choosing Easy to Service Bins

### The New and Improved Rise™ Series

Implementing strategies like standardizing your program, adding more recycling stations, and reducing contamination can boost diversion rates and reduce facility costs.

The Rise™ Series features a multi-stream solution in a low-profile design that minimizes disruptions in narrow spaces. Now enhanced with color-coded lids and restrictive openings to support proper stream separation.

Make servicing easier, conserve space and keep floors clean without shifting containers.
