

FROM FUNDING TO FINAL WHISTLE

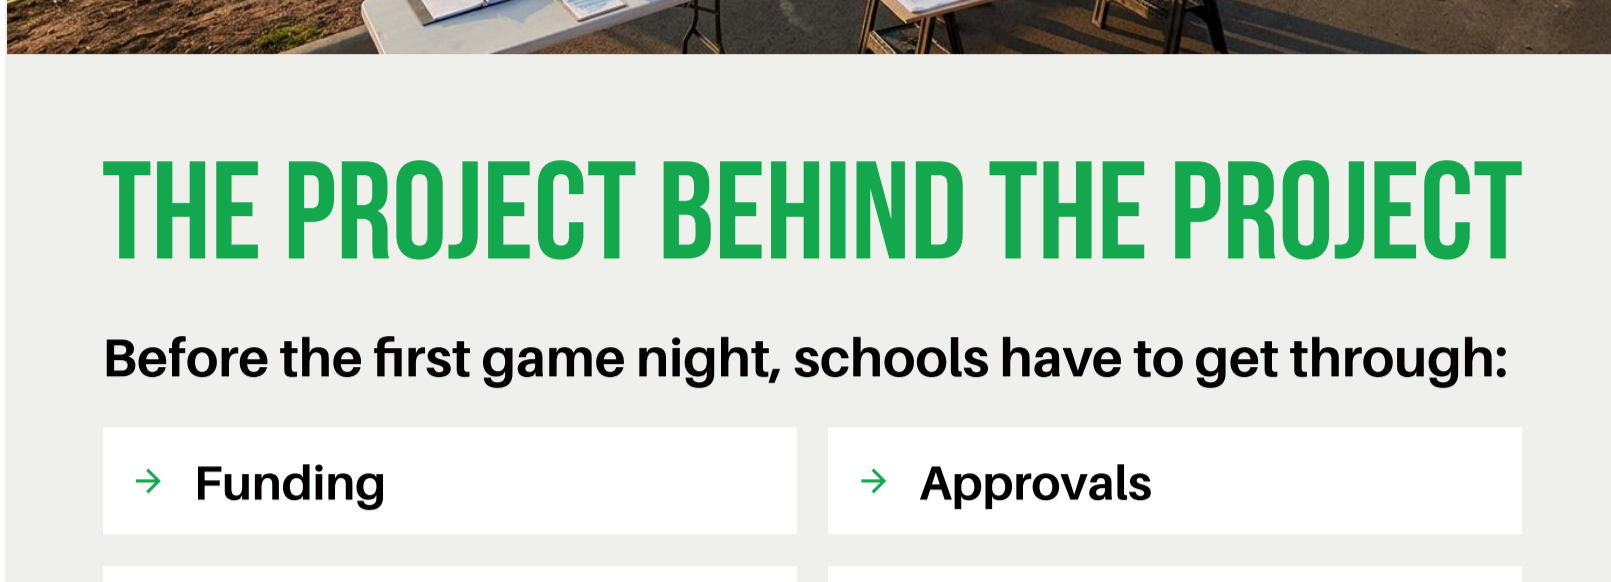

A smarter way to get athletic field lighting projects approved, funded, installed, and game-ready.

Field lighting projects are never just about lights. They are about:

- Budgets
- Procurement
- Performance
- Board Confidence
- Funding
- Timing

And when the season starts, everything has to work.

THE PROJECT BEHIND THE PROJECT

Before the first game night, schools have to get through:

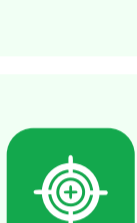

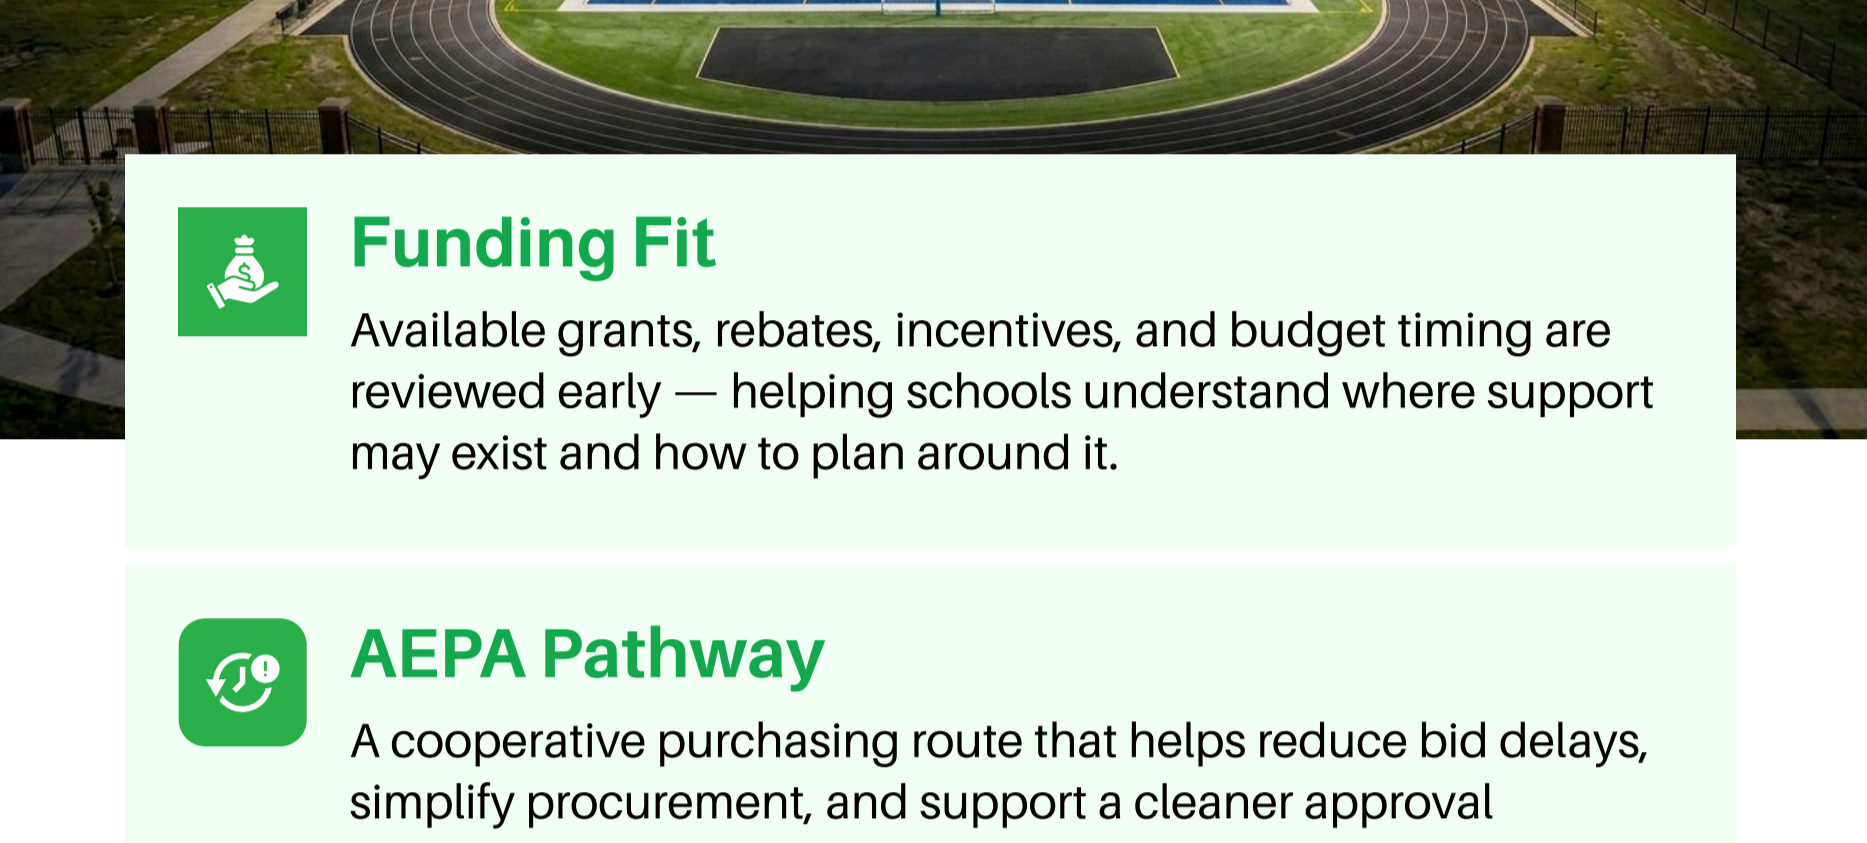

- Funding
- Procurement
- Installation
- Approvals
- Design
- Commissioning

One missed detail can slow everything down.

That is why athletic lighting needs more than a supplier it needs a connected project path.

THE IKIO FIELDREADY™ APPROACH

Built to reduce friction before the lights ever turn on.

Funding Fit

Available grants, rebates, incentives, and budget timing are reviewed early — helping schools understand where support may exist and how to plan around it.

AEPA Pathway

A cooperative purchasing route that helps reduce bid delays, simplify procurement, and support a cleaner approval process.

Field Precision

Lighting planned around the details that matter on the field: visibility, uniformity, glare control, aiming, and real game conditions.

Execution Control

From field review to installation coordination and commissioning, the project stays connected from start to finish.

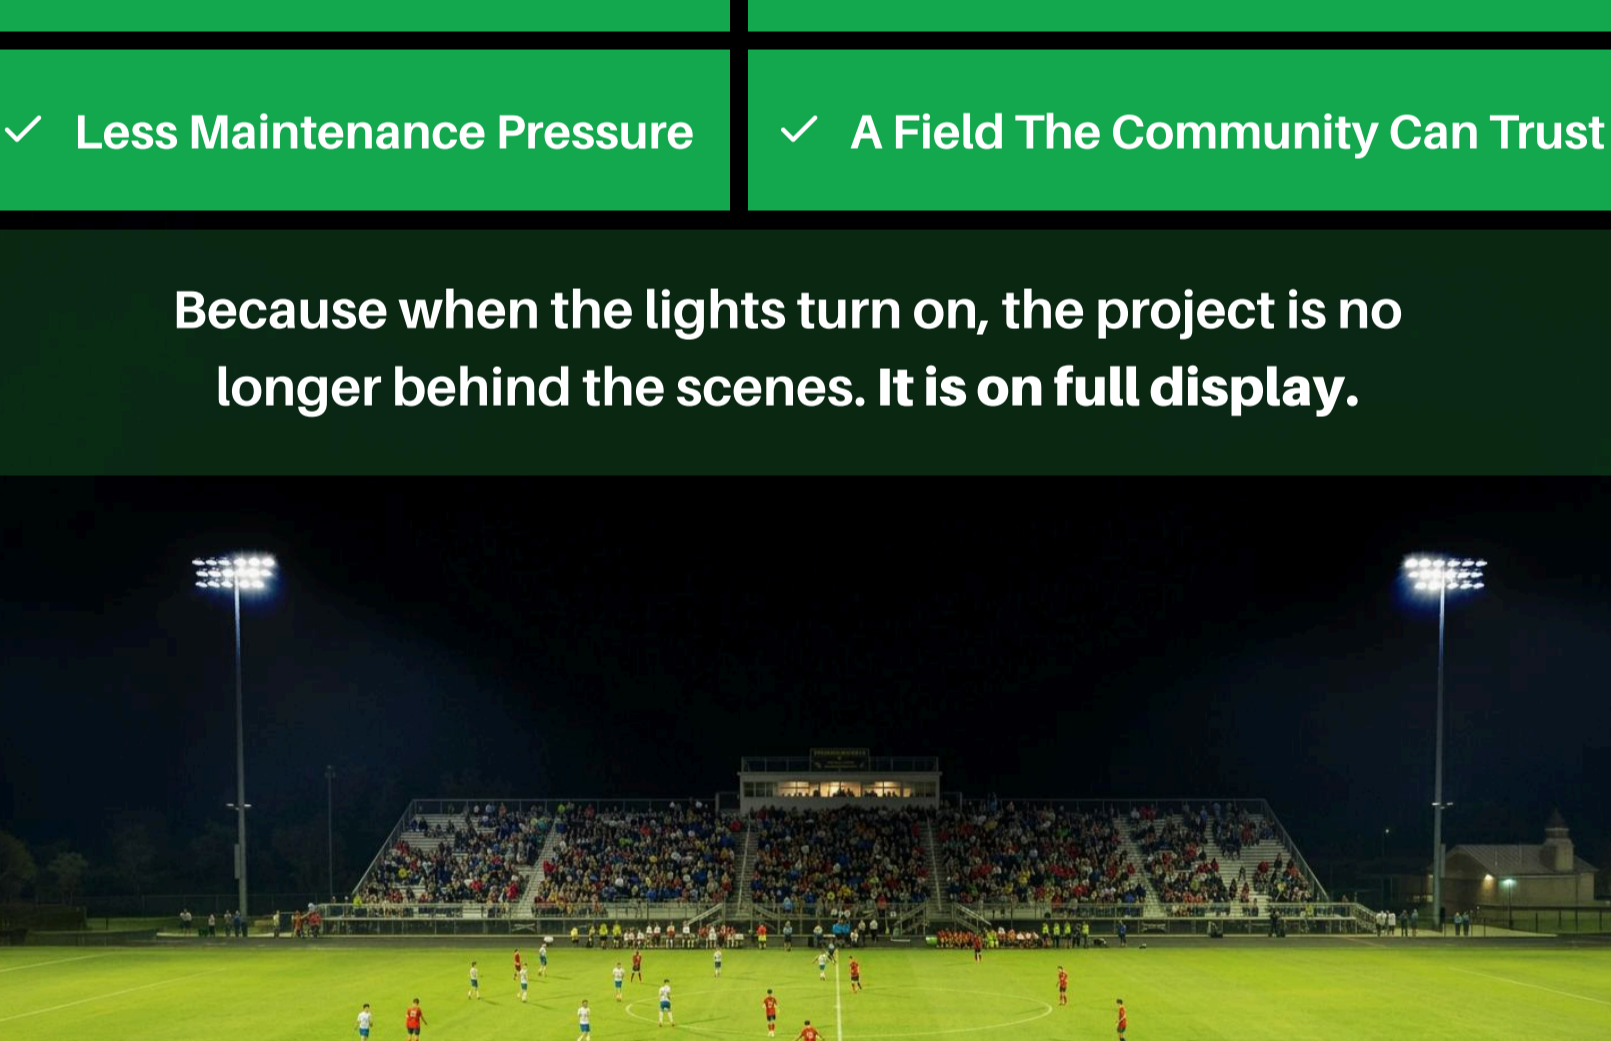

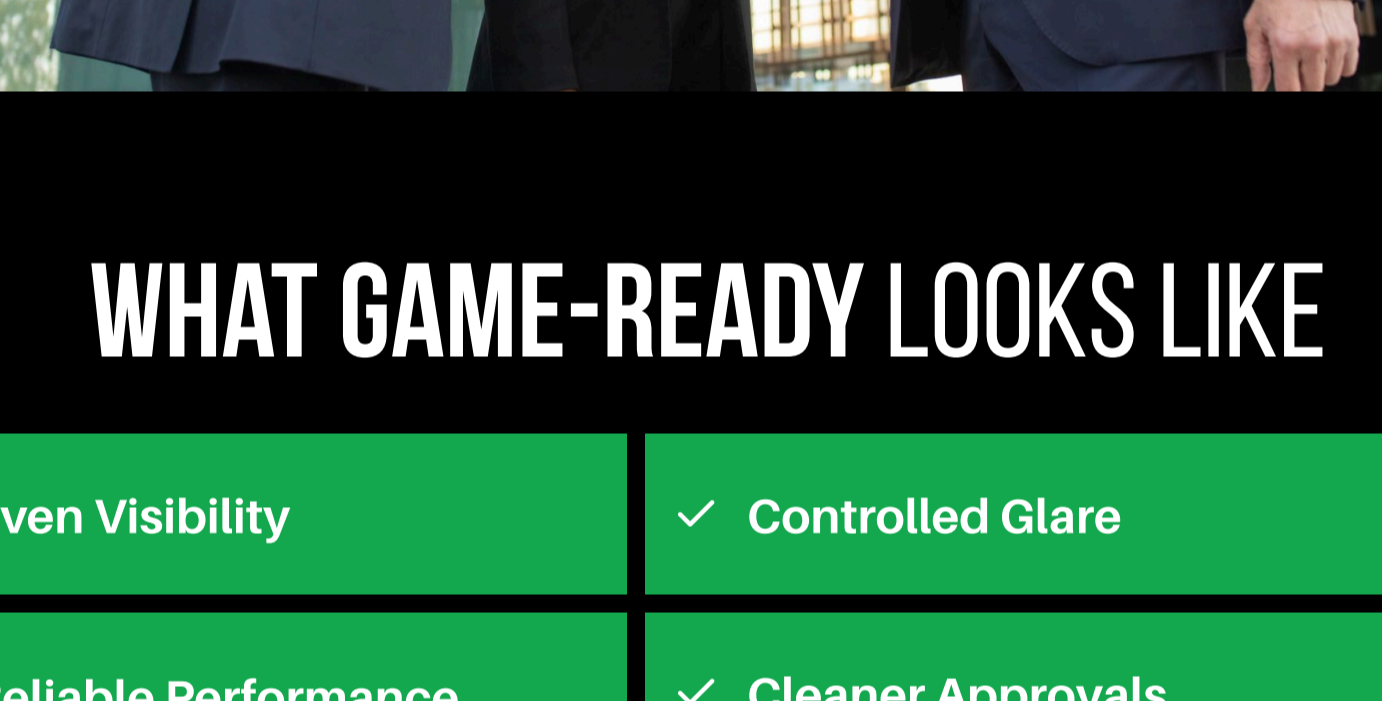

Season Confidence

The goal is simple: a field that is ready before schedules get busy and expectations get high.

NO GUESSWORK. NO VENDOR CHAOS. NO GAME-DAY SURPRISES.

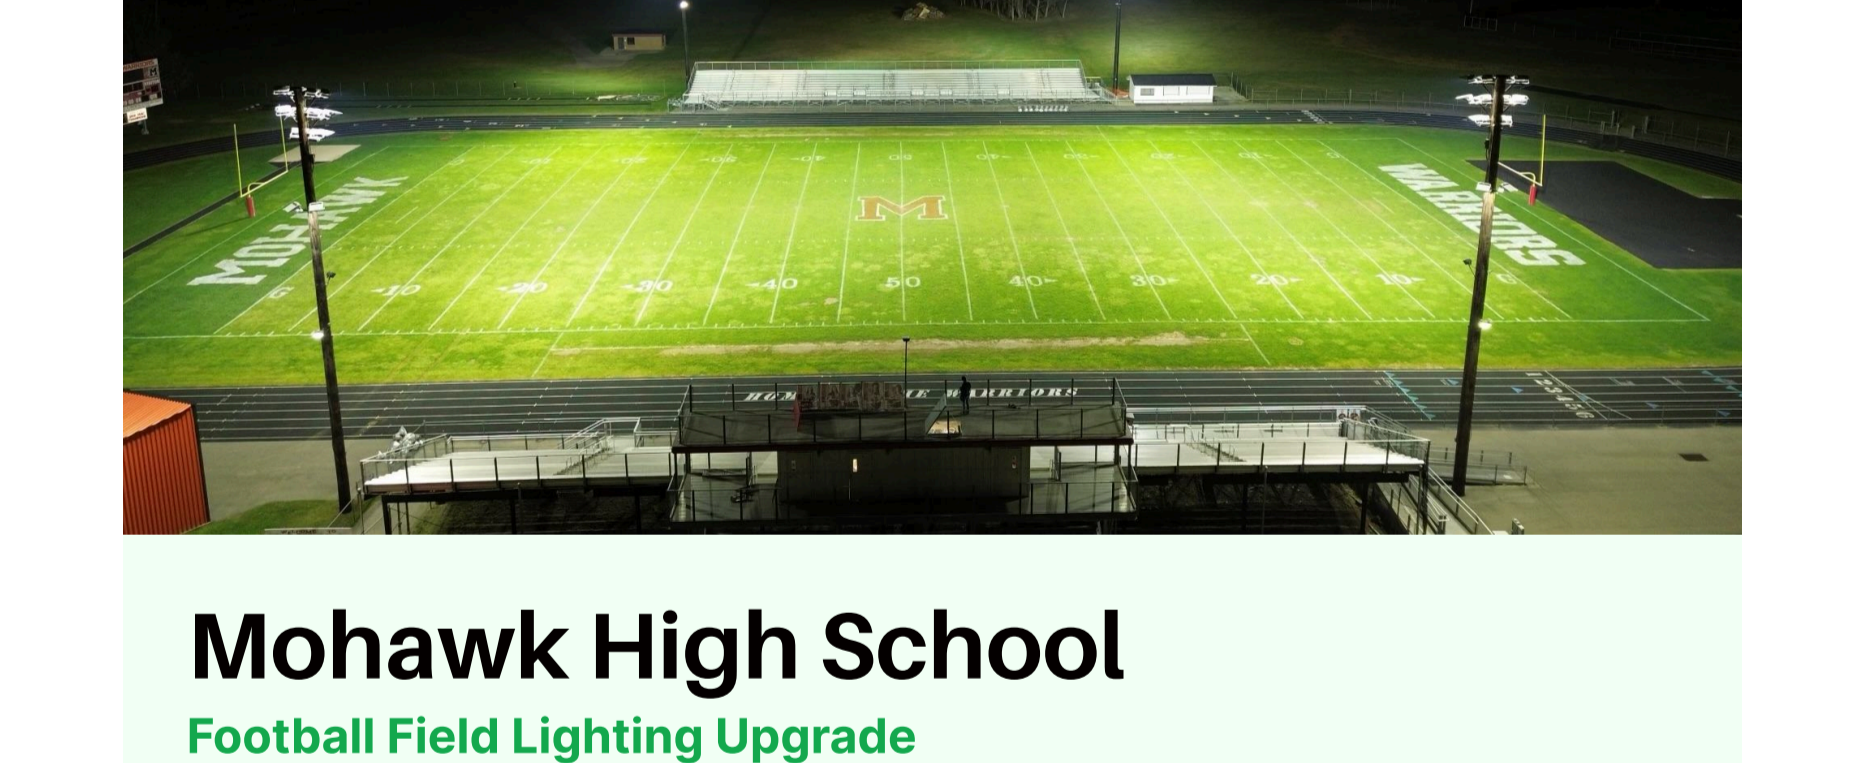

Just one coordinated path from project idea to field performance.

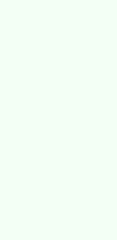

WHAT GAME-READY LOOKS LIKE

- ✓ Even Visibility
- ✓ Reliable Performance
- ✓ Less Maintenance Pressure
- ✓ Controlled Glare
- ✓ Cleaner Approvals
- ✓ A Field The Community Can Trust

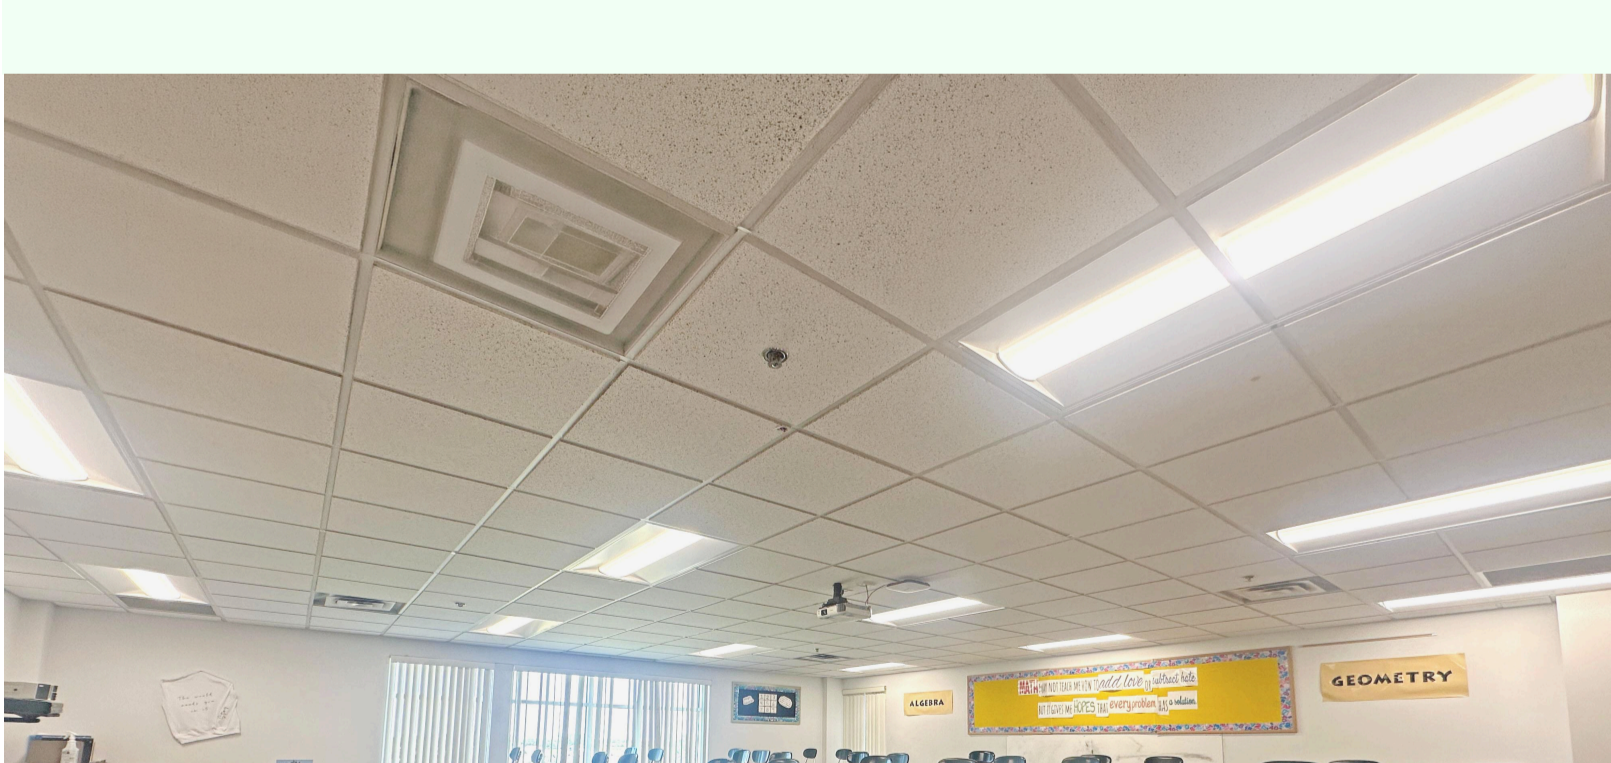

Because when the lights turn on, the project is no longer behind the scenes. It is on full display.

PROOF IN PLAY

Built to reduce friction before the lights ever turn on.

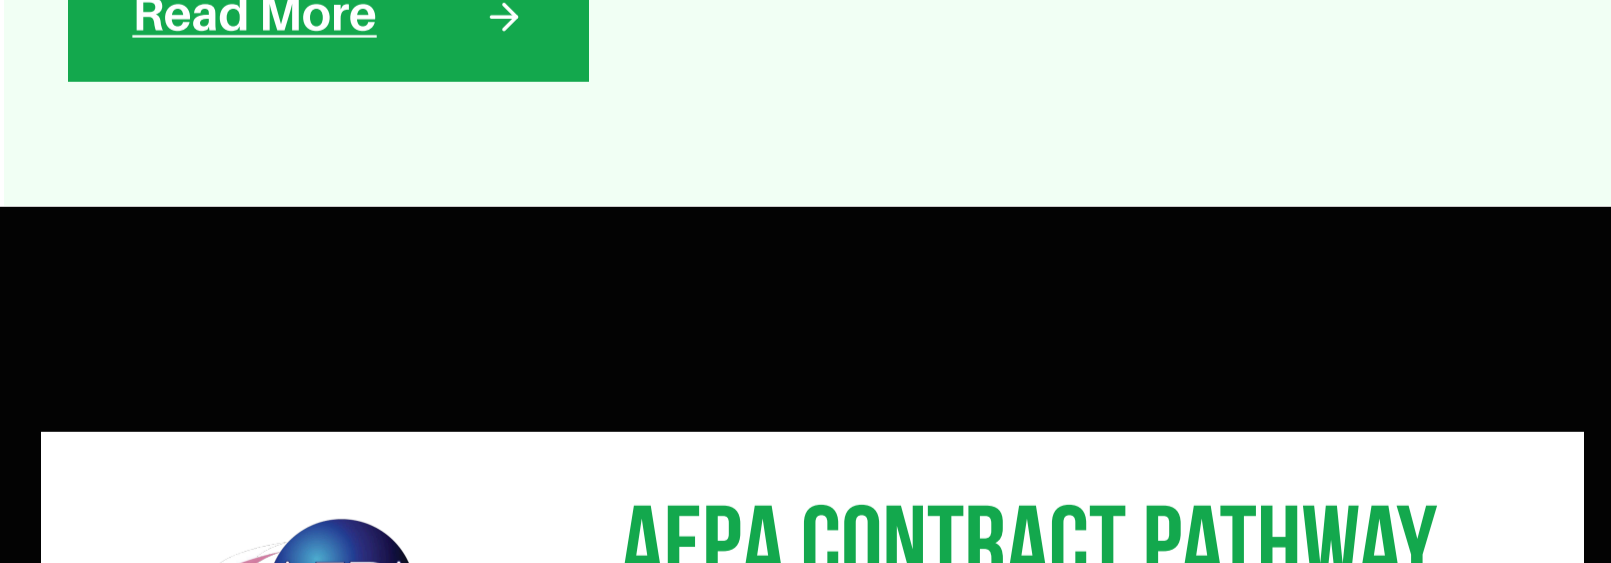

Mohawk High School

Football Field Lighting Upgrade

A focused athletic lighting upgrade supporting improved field visibility, play conditions, and game-night experience.
