## Emergency Management System

### Campus Safety Without Barriers

As a next-generation emergency management system from Audio Enhancement®, SAFE + unites all campuswide safety and communication initiatives into one seamless, coordinated platform. Simultaneous cloud-based access from mobile and desktop applications empowers every staff member to initiate instant alerts anywhere, at any time, keeping district leaders, administrators, first responders, parents, and the community connected in real time.

- 1<sup>st</sup> Natively Integrated EMS with an Intercom System
- Mobile App for Every Staff Member
- Cloud-Hosted for Anytime, Anywhere Access
- Drill Management
- Interactive Dynamic Campus Mapping
- RapidSoS PSAP Integration
- Incident Management and Forms Tracking
